

MiDI 2015

Milan Demonstrative Initiatives

September 8th 2015 Tuesday International

Innovative solutions for Food Processes, Preservation, Safety, and Control

Location crea- IAA Via Giacomo Venezian 26 MILANO

The MiDI programme (Milan Demonstrative Initiatives) is proposed for disseminating scientific and innovative solutions to EXPO visitors in a context of a synergistic action between public and private partners to support the improvement of competitiveness of micro, small and medium enterprises, at national and international level, and for dissemination of information.

The day is especially dedicated to an International audience with the aim of transferring adequate, correct and up to date information about the latest research developments in the field. Certainly useful information for increasing SMEs competitiveness and disseminating Italian technologies.
